

Installing Flex-Fuel E85 Station POIs for your TomTom

Step 1: Download POI file

- Download [Flex-Fuel E85 Stations.zip](#) file.
- Open .zip file.
- File will contain both an .ov2 and .bmp file. You will need both.

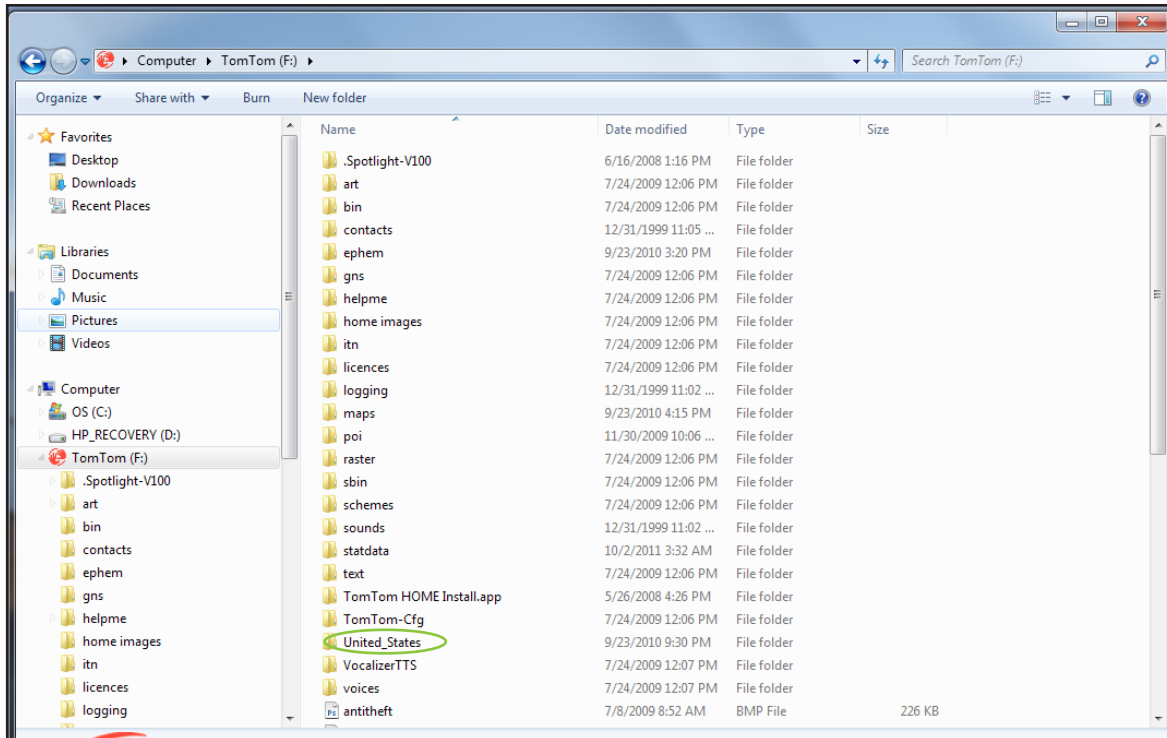

Step 2: Power on TomTom

- Plug your TomTom into your computer using the USB cable and then power on TomTom.
- If TomTom HOME starts up, close it as it won't be used.
- Click on **Start** then **My Computer**. A screen similar to the one below should appear.
- Your TomTom will be displayed either as red hands or another easy-to-identify icon. If it does not appear, re-check your cabling and make sure both ends are secure. Try turning your TomTom off and on again to see if your computer will recognize it.

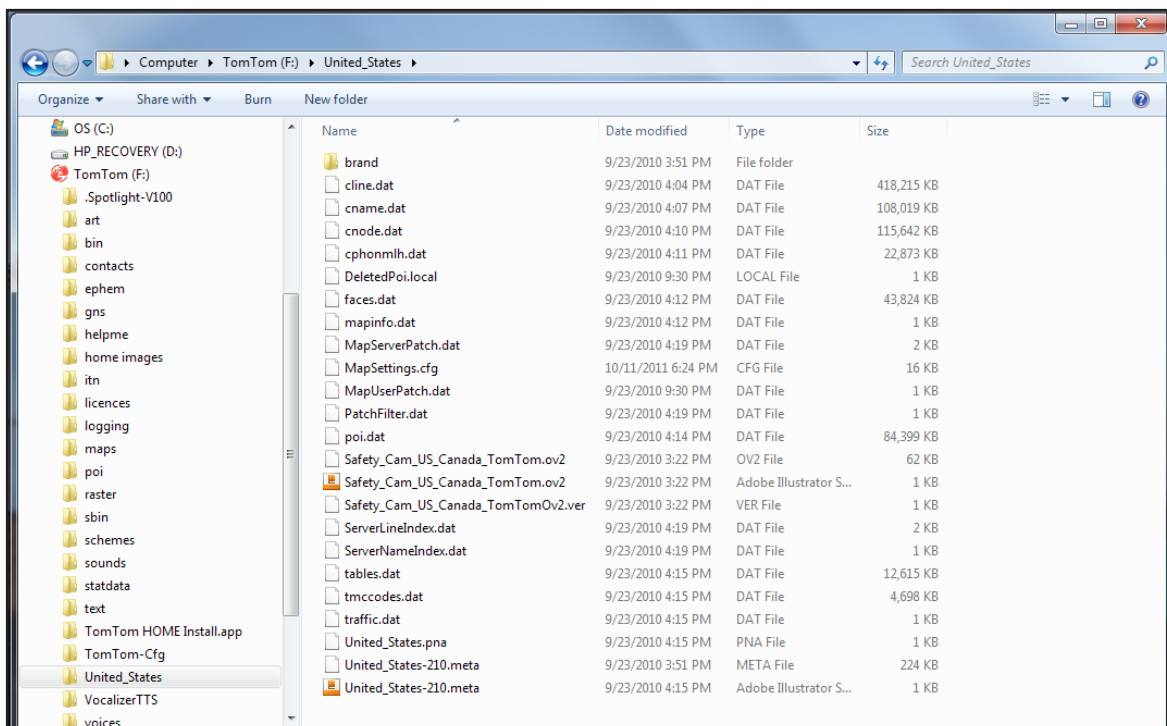

Step 3: Find correct folder

- Double click on the TomTom drive.
- A window similar to the one below will appear.
- Double click on the folder titled **United_States**.

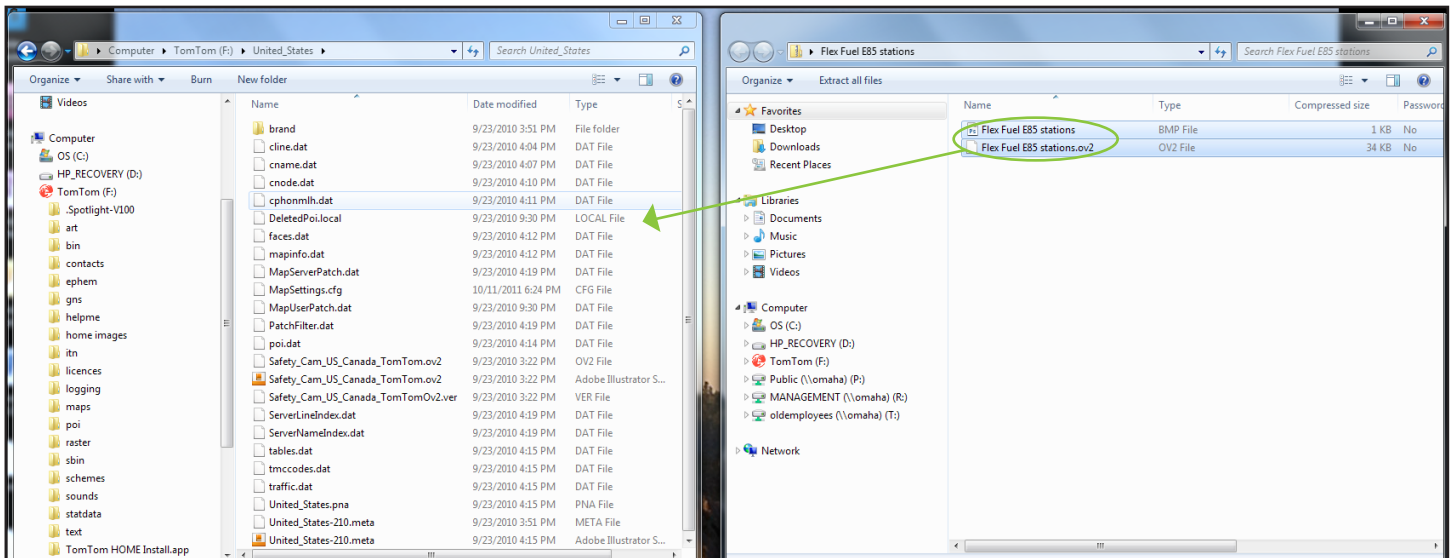

- A window similar to the one below will appear.

Step 3: Copy POI files to United_States folder

- Copy the **Flex-Fuel E85 Stations.ov2** & **Flex-Fuel E85 Stations.bmp** over to the open **United_States** folder.

Step 4: Activating new Flex-Fuel POI file on TomTom

- Safely disconnect your GPS from your computer by going back to **My Computer** and right-clicking on the TomTom drive.
- Click **Eject**.
- Once it has been safely disconnected, unplug from your computer and turn on TomTom.
- Depending on your TomTom model, the below steps could vary but should be very similar. Two different options are below.
- On TomTom click:
 - Add Favorite | Point of Interest | POI in city. Select city. Click **arrow** button. Scroll down list and select **Flex-Fuel E85 Stations**. Click **Back** until get to main menu. It will now be listed under POI list.
 - Or click: Options | Home and Favorites | Add Favorite | POI | POI in City. Select your city. Next select **Flex-Fuel E85 Stations** and it will now be added to your Favorite POI's.

Congratulations!
